TM 626 – MATERIAL DISPENSING SYSTEM

AUTOMATIC LOAD CELL MACHINE WITH ELECTRONIC LOCKING

TM 626

▼ AUTOMATIC LOAD CELL MACHINE WITH OR WITHOUT VIEWING WINDOW

The TM 626 is the ideal storage system solution for small parts, auxiliaries and consumables. All storage locations are equipped with load cell technology that registers every filling and removal. The booking is done in the Hartner Tool Management Software. Direct access to the system via an RFID solution enables decentralised placement and can avoid long distances in production.

- ▼ material dispensing system with electronic RFID lock
- ▼ consumption data is recorded fully automatic via weight measurements
- ▼ features shelves with weighing areas of various sizes
- ▼ shortages are minimised as the weighing cells continuously compare the weight
- ▼ open material dispensing system
- ▼ consumables and auxiliary parts can be stored

TM 626 with viewing window | front and side view

TM 626 without viewing window | front and side view
